

Tami L. Stainfield – seek to have arrest and case immediately dismissed no evidence to support charges.

1. Said I made a Threat against him- I made no threat to the man or women or any person in the park – spoke only of the science after the man with a saw in his hand said “who cares”
2. Public – in the parking lot for less than 5 mins no fight, no drugs, no alcohol, no weapons, only car keys – argument was on the pavement next to where they were cutting down the tree. My car was on the other side (few cars in parking lot) next to bank.
3. Forms of Activism – again handicap robot arm move – great having science that tortures our handicap and children
  - a. Abortion Activism
  - b. DWI Activism
  - c. Drug Activism
  - d. Peta Activism
4. Not an activist a Politian that believes the Constitution which includes the Bill of Rights.
5. Stated raped a girl - Not sure where this came from; I do not know any person in that park. No Police – drove to station and then drove back to park no police. Reason for driving to Police another man not the man and women arguing the Science to – another man on Cell Phone (talking to Police) I went up to him and the phone and yelled into it “I am not a Jared Loughner you are”. Saw no other calls during short time in Park

On tweets (attached) stated before Science is defined as tortured under USA 2340 and UN Article 7 and principles and thoughts of Domestic Violence would apply. (President Ford first payment to a man that died from mind control torture and mind control term is in 2340). In Jared Loughner evidence it was documented he was a victim of mind control – the outcome he had the characteristics that enabled him to move to violence – innocent people were killed – why you should care. More recent cases.

I Tami Stainfield have no violence in life, I am 50, have assets and I have skills, education and experience of a leader; furthermore being 50 and independent – I fight and use my power to try to stop the science or to find a way the Police can investigate. Instead of blaming the victims (as video provided shows) you catch the people who use the science in violation of human rights, bill of rights, and all natural rights.

On January 29 went to Ashuelot Park Parking lot, few cars were in the drive parked in front of bank. Walked over to the park and saw a handicap girl whose arm went up in a robotic motion. Turned and said in so many words great torturing our handicap and children. Man says “who cares” I said you should care – people are being tortured and have the right to defend themselves and it’s as Domestic Violence they can kill you. He started yelling with a saw in his hand – fight VERBAL went on for about 2-3 minutes; talking about how no one cares about the science, Loughner and them all documented they were victims.

Abortion – you’re a baby killer; DWI- it will kill you; Drugs – it can kill you; Peta- your killing animals how would you like to be killed. Brain and Body torture the science can kill you.

His wife did a crazy motion with her finger I went over and confronted the crazy comment (odd to taunt in public) looked at handicap girl and the women no in violence from me – however not in a violent manner she put her hand on the side of my neck almost like taking a pulse, temperature, odd from the side with no force. There fierce not caring or being interested - made me ask do you work for a hospital did you do this to us?.

Before leaving man was on phone to police and I yelled I am not a Loughner you are.

Then left – women followed with an axe or saw in hand, went to the police station – drove by and went back to the site and no cop was there. Went home and twitted another robotics scripted event.

No idea who any of the people were – even today Police didn't provide name – no knowledge of who the people were – 2 men, 1 women Trees and then Handicap girl and a women with her.

Video from traffic light or front of park would have whole event, and over a bank camera in the front. Short, verbal, no threats, and the only hand to body was women placing on my neck.

Please have case dismissed. Independent running for President [www.tamistainfield.com](http://www.tamistainfield.com) has all my legal forms. Furthermore package attached has evidence of science which is being used on innocent victims with no legal means to seek protection. Read my section from my website Technology and Bill of Rights; would immediate letter to have case dismissed.

Freedom of Speech, Freedom of Assembly, Freedom to Political Speech; I do not know these people and I made no threat to their lives or wish them any harm; no evidence even for the arrest.

Thank you.
